History of the Flag of Spain

The flag of Spain is made up of three horizontal stripes in the colors of red and yellow. The yellow stripe which is centered in the middle is double the size of both the red stripes. The flag of Spain is typically charged with the Spanish coat of arms in the left half of the yellow stripe, and this is actually compulsory for all the Spanish institutions and military forces, according to the law.

An urban legend actually holds that the colors used on the flag of Spain are derived from the bullfighting arena, because this is such a traditional and popular sport in the country.
