

Atlantis Paradise Island, Bahamas

The Bahamas is a favorite vacation spot and there are first class amenities for tourists. The most prestigious of these is The Atlantis, a large resort containing a casino, located at Paradise Island, Nassau. The Atlantis Paradise Island is a major employer in the area and has a staff of approximately 6,000 people. The local economy benefits from this resort a great deal. It has often been used as a location for movies and TV, including James Bond films. The Marina Village is a shopping center and has restaurants too.

Atlantis Paradise Island is by far the biggest resort in the Bahamas. Located on New Providence Island, the word "resort" barely does it justice; Atlantis is a combination of amusement park, water park, casino, spa, beach all rolled into one sparkling and gigantic package. There are so many lagoons, water features, walk-through aquariums and waterfalls that it's considered the largest marine habitat in the world. With over 2,700 hotel rooms and villas, there are a variety of accommodation choices in three large hotels and a villa complex. Facilities at Atlantis include water slides; a kid's club; special teen activities; a dozen or so bars; numerous restaurants; a theater; a sports club; a spa; and a casino.

The great draw for kids is the waterslides, particularly the huge Mayan Temple Slides. These can keep them occupied for hours. One important tip: Make sure everyone has swimsuits without metal rivets, zippers, studs, etc. These are not allowed on the slides, and you'll be charged a fortune to buy an acceptable swimsuit at the resort. The Atlantis Kids Club has a variety of options for children aged 3 through 12, so your kids can be safe and supervised while they have fun, and while you hit the more grownup entertainment.

There is plenty for guests to do and see, whether they want to relax or be more active. The Aquaventure waterscape opened in 2007 and contains slides, lazy rivers, rapids, underground caverns and a rock climbing wall. There are other water parks at the Atlantis Paradise Island, such as The Current and The Power Tower. The Mayan Temple Slides at the Royal Towers are water slides, one of which is a clear tunnel that goes through a lagoon filled with sharks.

The Dig is a delightful attraction for people interested in marine life. It contains various aquariums located underneath the lobby at the Royal Towers and is the largest open-air marine environment in the world. Species on view include sharks, manta rays, jellyfish, stingrays and barracudas.

When it comes to choosing from the many Caribbean hotels available, there is one that looks like a lot of fun and that is the Atlantis on Nassau's Paradise Island. This stunning Caribbean beach resort is based on the theme of the legendary Atlantis. If you've ever wanted to add a little bit of fantasy to your vacation and step into another world, this is the place to go.
